🎓 Education

Business, trade and exchange activities; Master's degree

Lutsk National Technical University

12/2020

Lutsk, Ukraine

💼 Professional Experience

Freelancer (Upwork)

02/2021 - present

Python Web Developer

During this period I successfully completed more than 10 contracts, worked on pretty large projects, and managed to get long-term clients. My main responsibilities were to create apps from scratch, work with ongoing projects, bug fixing, and add new features. Backend/Frontend/API development and integration, third-party libraries integration - I worked on a different kind of tasks.
